GRAHAM

TAEZELL COUNTY VA.

The Graham Land and Improvement company will offer for sale on

Thursday, April 10th

at 10 o'clock, at the office of the company in Graham, town lots, as shown on plan, now ready for distribution.

TERMS OF SALE.—One-third cash, one-third in one year, one-third in two years, with six per cent interest per annum on the deferred payments.

Applications for lots at the company's prices will be received up to noon on Tuesday, April 8th, 1890.

Parties making application by letter will be careful to designate the section and the number of the lot or lots desired.

Lots for which more than one application shall be received will be sold to the highest bidder at Public Auction on Thursday, April 10th, at 10 o'clock, at the office of the company in Graham.

After the public sale of lots above mentioned, the balance of the lots remaining unsold will be offered to the public at the prices fixed by the company, which range from \$125 to \$500 each according to location.

The Graham Land and Improvement company has purchased about 900 acres of land, including the old town of Graham, at the junction of the Clinch Valley and Ohio Extension of the Norfolk and Western railroad in Tazewell county, Virginia, and has improved the property by laying it out in streets and lots.

The land is so situated, being at the junction of two important branches of the Norfolk and Western railroad, with the Bluestone river running through it, and in close proximity to the Pocahontas coal field, and the iron ore deposits of the Clinch Valley, that it is believed it will within a short period become an important iron manufacturing centre, as well as a distributing point for the entire coal field.

The Clinch Valley and the Ohio extension of the Norfolk and Western railroad runs through a section of country heavily covered with poplar, white and chestnut oak timber, and it is believed that Graham at the junction of these two branches is a most desirable location for the establishment of saw mills, tanneries, pulp mills, and other wood-working establishments.

The following desirable industries have already been secured:

The Graham Lumber company, with a capital of \$250,000, have under construction an iron furnace; dimensions, 16x70 feet, with a capacity of about 100 tons per day, and expect to be in blast by November first.

The Virginia Lumber company, with a capital of \$50,000, are erecting their buildings and will be in operation by the first of May.

Arrangements are also being made with parties who propose building at once a large general supply store and warehouse, buildings to cost about \$10,000, and having a working capital of not less than \$50,000.

A company with a capital of \$20,000 is also formed for the manufacture of ice, and expect to be in operation in the course of a few months.

The Graham Land and Improvement company have plans perfected for a fine hotel, which they hope to have ready for occupation by September first. The hotel will be heated by steam and lighted by electricity, and it is the aim of the company to make it one of the most attractive hotels in Virginia.

Parties desiring to purchase lots will be furnished with maps and price list and any desired information by addressing R. K. Wright, Jr., Agent, Graham, Virginia, or E. J. Collins, Secretary, Bullitt Building, Philadelphia, Pennsylvania.

President, H. M. Sullivan, vice president, Edward Hiley, Secretary and treasurer, E. J. Collins, Directors, A. J. May, Tazewell Court House, Va.; C. M. Clark, Philadelphia, Pa.; J. D. Sergeant, Philadelphia, Pa.; Thomas Graham, Philadelphia, Pa.; J. B. Grever, Philadelphia, Pa.; J. H. Dingee, Philadelphia, Pa.; H. M. Sill, Philadelphia, Pa. mar20-ap10

Fine Art Tiles.

Mr. W. H. Riddle, of the firm of Riddle & Williams, is in the city on business for his house. The firm are large dealers in art tiles and mantels, as have already several important contracts made. Mr. Riddle will be here a couple of days and parties wishing such work done can address him at the general postoffice.

To Prevent Railroad Accidents.

Francis B. Kemp & Co. are now exhibiting a wonderful invention at their office. It consists of an electrical device to prevent accidents of every description on railroads, and if the matter is properly understood and claimed for it travelers can feel safe, and accident policies be at a discount. Batteries and the proper belts and connections are placed in each engine, a central conductor laid parallel with the rails, and a railroad is equipped. Should two trains approach a dangerous proximity, an alarm is sounded in each cab on an electric gong, and the steam whistles blowing. The engineers, knowing danger is near, stop the train, put telephones to their ears and yell the familiar "Hello!" They communicate with perfect ease, either when the engines are stopped or running at full speed. An automatic signal is also given should a switch be misplaced or a bridge burnt or washed away. Additional batteries are placed at the stations along the road, which work the alarms should those placed on the engines become broken. The company controlling this simple, though wonderful, device has J. T. Odell, general manager of the Baltimore and Ohio railroad, for president, and James R. Branch, secretary and treasurer. This courteous gentleman informs us he is here for the public benefit, and will take pleasure in showing the invention to any one interested in his or her own safety. Call at once.
